

SFCSD News

From your local water reclamation services provider

Big Changes Coming

You may have noticed increased activity around our temporary office. We're making improvements designed to better serve you, making access easier, safer, and more convenient

A New Office Built for You

Our new office is designed to enhance customer service both now and in the future. As our service area continues to grow, this space allows us to provide more efficient support, improved accessibility, and a more welcoming environment for in-person assistance.

This investment ensures we can continue delivering reliable, high-quality service while meeting the needs of our growing community.

What to Expect

Safer Access

With construction activity increasing along Carpenter Road, safety is a top priority. Beginning in May, roadwork will include new turning lanes to provide safer, more efficient access to our office.

Easier to Visit

The new office eliminates the need for call boxes or restricted entry points, making it simpler to stop in, ask questions, and get help with your account.

24/7 Payment Drop Box

A secure, easy-to-use payment drop box will be available 24/7, allowing payments to be made at any time for added convenience.

Keeping Your System Running Strong

Every day, our team works to ensure the wastewater system you rely on operates safely and efficiently. Through routine inspections, preventative maintenance, and ongoing system improvements, we can identify and address issues before they become problems.

From pipelines to manholes and lift stations, all the way to the treatment plant, these efforts help extend the life of our infrastructure and reduce the risk of unexpected service disruptions.

Our work may happen behind the scenes, but its impact is felt throughout the community—protecting public health, supporting the environment, and keeping essential services running smoothly.

New Office Building

Thank you for your continued trust in South Fort Collins Sanitation District. If you have any questions or need further information, please feel free to reach out to us at (970) 226-2484 or visit our website at www.sfcSD.net.
